To the residents of Kingston's Countryside District:

I am pleased to offer my support for **Vic Sahai** in his campaign for Councillor for the Countryside District.

I have known Vic for many years. We first worked together when Vic was Director of the Hotel Dieu Hospital Research Institute and I served on the HDH Board. During that time, I had the opportunity to see firsthand the qualities he brings to leadership.

Vic is smart, articulate and, most importantly, someone who gets things done. He understands complex issues, asks the right questions and is not afraid to speak up when something needs to be addressed. At the same time, he listens carefully to others and works well with people who may have different perspectives.

Vic has spent his career in public service, health care, research and education. He understands how government and public institutions work, how public money should be managed, and the importance of accountability to the people we serve.

I also know Vic as someone who cares deeply about Kingston and about the Countryside community he calls home. I believe he would bring experience, sound judgment, energy and a strong independent voice to Kingston City Council.

I am very pleased to support **Vic Sahai for Councillor for Countryside** and encourage residents to give him their consideration and support.
